

Features

- Attractive low profile
- Protects connectors from damage by objects forced against the plate
- Modular inserts for faster installations
- Accommodates:
 - 3 SpeedStar™ connectors
 - 3 CablePass™ feed-through
 - 2 F81 barrel/2 SpeedStar™
- Easy to install for new construction or replacement of existing faceplates.
- Custom branding available (call for minimum order qty's)

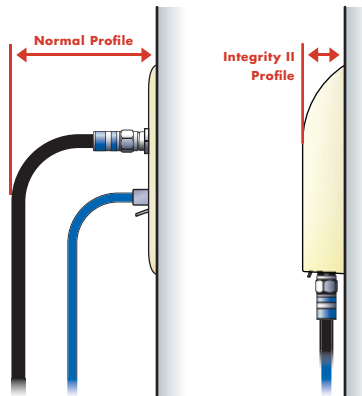

Product Description

The Integrity™ Wide takes the Integrity™ II concepts and brings them to the double-gang faceplate. New connector options support TIA/EIA 570B.1 Grade II specifications (two coax ports, two CAT5e drops), triple play solutions, and an expanded CablePass™ for even larger bulk cabling applications (up to 24 CAT5e cables). It also employs the same smooth, shatter-resistant, high-impact thermoplastic face to protect the installation from collateral damage.

Available in four configurations, the Integrity™ Wide faceplates bring a high-capacity solution to the Integrity™ family for larger applications.

Specifications

Materials ----- High impact, UL 94V-0 rated thermoplastic
 Dimensions ----- 5.04"H x 5"W x 1"D
 Safety ----- cULus listed

Part #	Description
2-6520D-xx	plate w/ all 3 insert styles
2-6522D-xx	plate w/ 3-port SpeedStar™ insert, connectors not included
2-6523D-xx	plate w/ CablePass™ feed-through
2-6524D-xx	plate w/ F81/SpeedStar™ insert, connectors not included

color (-xx):

(52) Elec Ivory, (64) Light Almond, (85) White
